vinsarioshen610@gmail.com | P: +62 82182783996 | [LinkedIn](#) | [Github](#)

## SUMMARY

A results-driven frontend developer specializing in React, Next.js, and Tailwind CSS. Proven ability to build responsive, accessible web applications and collaborate effectively with UI/UX teams. Passionate about clean code, user-centric design, and best practices, while continuously learning emerging technologies. Currently pursuing a degree in Informatics Engineering at Institut Teknologi Sepuluh Nopember (ITS).

## PROFESSIONAL EXPERIENCES

### Flexoo Software House – Frontend Developer

May 2024 - Present

- Translate design mockups into responsive websites, improving development speed by **30%** through reusable components.
- Build cross-browser-compatible layouts with optimized load time, reducing initial page load and maintaining responsiveness across multiple devices.
- Deliver freelance projects in an agile team, maintaining reliable and efficient workflows.

## ORGANIZATIONAL EXPERIENCES

### TEDxITS – Frontend Developer Staff ([website](#))

Dec 2024 – July 2025

- Enhanced homepage experience, increasing user engagement and retention through subtle animation and clean layout.
- Designed and implemented animations using Tailwind CSS, boosting user interaction on key pages by **25%**.

### Schematics ITS – Frontend Developer Expert Staff ([website](#))

Jan 2025 – Present

- Reviewed frontend code for clarity and maintainability, helping reduce common UI issues and improve codebase stability.
- Effectively integrated frontend components with backend services using RESTful APIs, ensuring seamless data flow and application functionality for users.

## PROJECTS

### Fourjectiv ([website](#))

Developed a responsive yearbook service website. Integrated dynamic CMS and secure admin login. Collaborated with UI/UX and backend teams to ensure seamless user experience.

Tech stacks: NextJS, Tailwind CSS

### Diner ([website](#))

Led frontend development for a document-signing platform. Designed UI, connected API endpoints, and completed project within 2 months with full team collaboration.

Tech stacks: NextJS, ExpressJS, Tailwind CSS, MongoDB

### Personal Landing Page ([website](#))

Designed and deployed a personal landing page to showcase projects and skills, optimized for fast load times and accessibility across devices.

Tech stacks: NextJS, Tailwind CSS, TypeScript

## SKILLS

### Programming Languages

: HTML, CSS, JavaScript, TypeScript

### Frameworks/Libraries

: ReactJS, NextJS, Tailwind CSS, ExpressJS

### Tools

: Git, Github, Postman, Vercel, Figma

## EDUCATION

---

**Institut Teknologi Sepuluh Nopember (ITS)**

Bachelor of Engineering - Informatics Engineering

Cumulative GPA: 3.87/4.0

Relevant Coursework: Web Programming, Data Structures, OS, Databases, OOP, AI Concepts

Surabaya, Indonesia

Expected June 2027
